No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           DB seq

RESULT 4 US-08-038-682-4

Sequence 4, Application US/08038682 Patent No. 5549897

GENERAL INFORMATION:

APPLICANT: BARENKAMP, STEPHEN J
APPLICANT: ST. GEME III, JOSEPH W
TITLE OF INVENTION: HIGH MOLECULAR WEIGHT SURFACE
TITLE OF INVENTION: OF NON-TYPEABLE HAEMOPHILUS

NUMBER OF SEQUENCES: 8
CORRESPONDENCE ADDRESS:

ADDRESSEE: Shoemaker and Mattare, Ltd

STREET:

2001 Jefferson Bldg. 1

Davis Hwy.,

1203

Crystal Plaza

Arlington
